

Your home loan questions tackled!

How can a broker help?

A good broker can be a big help - hunting down the home loan that's right for you, and helping to get your loan application across the line. Best of all, it should be a free service - your broker is paid by the lender you decide to run with.

Tip

Be sure your broker is offering the best deal by looking for a broker with a wide choice of lenders. And always ask why a particular loan is being recommended to you.
