FIXED TERM DEPOSIT ACCOUNT

ABOUT THIS ACCOUNT

Fixed Term Deposit Accounts are not currently offered. They were generally available in the currencies and investment terms as listed in the section on Key features.

HOW DOES IT WORK?

Fixed Term Deposit Accounts provided you with an investment option to diversify your investment portfolio. They allowed you to lock in competitive interest rates for terms that suited your investment needs, and pay interest at maturity. Fixed Term Deposit Accounts are not currently offered.

HOW DO I MAKE AN ADDITIONAL INVESTMENT?

Additional investments cannot be made into this product as it is not currently offered.

WHAT HAPPENS AT MATURITY?

Fixed Term Deposit Accounts are not currently offered and you cannot reinvest in a new term deposit. At maturity funds will be transferred to another Citi branded account held by you or paid to you by bank cheque in Australian Dollars.

WHAT HAPPENS IF I NEED TO BREAK THE TERM OF MY FIXED TERM DEPOSIT ACCOUNT TO ACCESS MY FUNDS?

NAB is only obliged to repay term deposits at maturity, but can accommodate early withdrawal requests. If you request early withdrawal and this is agreed with NAB, this will reduce the amount payable to you from the interest income on the Term Deposit. A description of this reduction is set out in our Schedule of Fees and Charges.

Although the reduction in interest income is calculated as a percentage of the accrued interest up to the date of processing, your interest income for the financial year in which the interest is paid will be reported as the gross amount of interest earned excluding any reduction in interest income amount.

Please contact your Relationship Manager if you wish to request an early withdrawal of all or part of your Fixed Term Deposit Account prior to maturity. Withdrawals can be made by bank cheque and by payment to another account or another bank account via telegraphic transfer. Fees may apply with processing certain transactions. Please read the Schedule of Fees and Charges with this document as it outlines fees applicable to your Account and our services.

LADDER TERM DEPOSIT ACCOUNT

ABOUT THIS ACCOUNT

Ladder Term Deposit Accounts are not currently offered. They did reward you for investing your money for longer terms by paying you progressively higher interest rates over the term of your investment. It also allowed you to use or reinvest your interest during the investment period.

HOW DOES IT WORK?

A Ladder Term Deposit Account is a fixed term deposit account with special features:

- the term of the deposit is divided into several equal intervals or steps
- a different interest rate applies to each step - the interest rates will generally increase as the steps progress
- interest is paid to you after each step. You can choose to reinvest interest into the next step of your Ladder Term Deposit Account or to have it paid into a Citi branded Overnight Multi Currency or At Call Account for your use.

EXAMPLE

On 1 March 2021, Gary invests USD100,000.00 into a Ladder Term Deposit Account issued by NAB with a term of 1 year, with 4 steps of 3 months duration. Interest rates payable in relation to Gary's investment are:

Step 1	=	0.50% pa
Step 2	=	0.75% pa
Step 3	=	1.00% pa
Step 4	=	1.25% pa

If at the time of investment, Gary chooses to have his interest reinvested in his Ladder Term Deposit Account after each step, his return will be calculated as set out below.

Step	Interest calculation
1 1 March 2021 - 31 May 2021 (92 days)	USD100,000.00 x 0.50% pa x (92/360) Interest reinvested = USD127.78
2 1 June 2021 - 31 August 2021 (92 days)	USD100,127.78 x 0.75% pa x (92/360) Interest reinvested = USD191.91
3 1 September 2021 - 30 November 2021 (91 days)	USD100,319.69 x 1.00% pa x (91/360) Interest reinvested = USD253.59
4 1 December 2021 - 28 February 2022 (90 days)	USD100,573.27 x 1.25% pa x (90/360) Interest reinvested = USD314.29
TOTAL INTEREST	USD887.57

If at the time of investment, Gary chooses to have his interest paid into his US Dollar At Call Account after each step, his return will be calculated as set out in the table below.

Step	Interest calculation
1 1 March 2021 - 31 May 2021 (92 days)	USD100,000.00 x 0.50% pa x (92/360) Interest paid to US Dollar At Call Account = USD127.78
2 1 June 2021 - 31 August 2021 (92 days)	USD100,000.00 x 0.75% pa x (92/360) Interest paid to US Dollar At Call Account = USD191.67
3 1 September 2021 - 30 November 2021 (91 days)	USD100,000.00 x 1.00% pa x (91/360) Interest paid to US Dollar At Call Account = USD252.78
4 1 December 2021 - 28 February 2022 (90 days)	USD100,000.00 x 1.25% pa x (90/360) Interest paid to US Dollar At Call Account = USD312.50
TOTAL INTEREST PAID TO NAB ACCOUNT	USD884.73

Ladder Term Deposit Accounts will not always be on offer, so please check with a Relationship Manager if you are interested in investing in a Ladder Term Deposit Account. The Ladder Term Deposit Account will be available only when the market and economic conditions allow NAB to offer you attractive rates for your investment. Currently they are available only in US Dollars. We may offer other currencies from time to time. Your Relationship Manager will be able to advise you of the terms, steps and interest rates that may be available.

WHAT HAPPENS AT MATURITY?

A Ladder Term Deposit Account will not be automatically reinvested on maturity. This is because the Ladder Term Deposit Account is not always available and NAB may vary the term of each offering. You will need to advise NAB how you wish your investment to be repaid at maturity at the time you apply.

WHAT HAPPENS IF I NEED TO BREAK THE TERM TO ACCESS MY FUNDS?

NAB is only obliged to repay term deposits at maturity, but can accommodate early withdrawal requests. If you request early withdrawal and this is agreed with NAB, this will reduce the amount payable to you from the interest income on the Term Deposit. A description of this reduction is set out in our Schedule of Fees and Charges.

Partial withdrawals are not permitted. You must withdraw the whole of your investment.

Although the reduction in interest income is calculated as a percentage of the accrued interest up to the date of processing, your interest income for the financial year in

which the interest is paid will be reported as the gross amount of interest earned excluding any reduction in interest income amount.

Please contact your Relationship Manager if you wish to request an early withdrawal of all or part of your Fixed Term Deposit Account prior to maturity. Withdrawals can be made by bank cheque and by payment to another account or another bank account via telegraphic transfer. Fees may apply with processing certain transactions.

FOREIGN EXCHANGE CONTRACTS

Part 1 - Product Features

Foreign Exchange Contracts provide you with a way of managing risks and capitalising on the opportunities associated with foreign currency markets. There are three product alternatives:

- **Foreign Exchange Transaction**
- **Forward Exchange Contract (not currently offered)**
- **Currency Exchange Order Watching Contract (not currently offered)**

A Foreign Exchange Transaction is a contract between NAB and you to exchange a specified amount in one currency for

another currency at the prevailing foreign exchange rate quoted by NAB at the time of entry into the transaction. All Foreign Exchange Transactions will be settled within two business days. A Forward Exchange Contract is a contract between NAB and you to exchange a specified amount in one currency for another currency at a specified foreign exchange rate on your selected settlement date.

A Currency Exchange Order Watching Contract is a contract between NAB and you to either exchange a specified amount of one currency for another currency or to enter into a Forward Exchange Contract if the prevailing foreign exchange rate reaches a level specified by you within an agreed period.

Key Features	Foreign Exchange Contracts
Available currencies*	Australian Dollar, British Pound, Canadian Dollar, Euro, Hong Kong Dollar, Japanese Yen, Swiss Franc, and United States Dollar. Other currencies are also available for Foreign Exchange Transactions. Please contact a NAB Relationship Manager for more information.
Minimum investment	No minimum investment for Foreign Exchange Transactions. USD20,000 or equivalent for Forward Exchange Contracts and Currency Exchange Order Watching Contracts.
Term	<p>Foreign Exchange Transaction Settled within two business days.</p> <p>Forward Exchange Contract From same business day to 12 months. If your source account is a fixed term deposit account (whether a Citi branded Multi Currency Account or a Citi branded Local Currency Account), your settlement date will be the same as the maturity date of your fixed term deposit account.</p> <p>Currency Exchange Order watching Contract From same business day to 12 months.</p>
Source account	<p>You must hold either:</p> <ul style="list-style-type: none"> • a Citi branded Multi Currency Account; or • a Citi branded Local Currency Account.

*The availability of any of the above currencies is subject to change without notice. You should contact a your Relationship Manager to obtain the latest information before investing.

FOREIGN EXCHANGE TRANSACTION AND FORWARD EXCHANGE CONTRACT

To enter into a Foreign Exchange Transaction with NAB, you will need to advise your Relationship Manager of:

- your investment amount and the currency of your funds
- the source account in which your funds are held
- the settlement currency
- the settlement date (for Foreign Exchange Transactions, the settlement date must be within two business days), and
- your payment instructions.

Forward Exchange Contracts are not currently offered.

Your Relationship Manager or Personal Banker will confirm that your instructions are accepted, then quote a prevailing foreign exchange rate for your Foreign Exchange Transaction or a forward exchange rate for your Forward Exchange Contract.

The forward exchange rate will be calculated by adjusting the prevailing foreign exchange rate between the currency of your investment amount and your settlement currency by a forward adjustment determined by NAB. The forward adjustment varies and is based on the interest rate differential between the two constituent currencies in the foreign exchange rate.

The forward exchange rate is not a forecast or an indication of NAB's expectations of the spot foreign exchange rate that will prevail on the settlement date.

Example 1 - Forward Exchange Rate

Melissa expects to settle the purchase of her house in the United States in three months' time. She wishes to enter into a three-month Forward Exchange Contract to convert her Australian Dollars to US Dollars. NAB may determine the forward exchange rate as follows:

<i>Prevailing AUD/USD foreign exchange rate at time of contract:</i>	0.7000
<i>Three-month forward adjustment determined by NAB:</i>	-0.0040
<i>AUD/USD forward exchange rate:</i>	0.7660

Please note that this is an example only and should not be taken as an indication or representation as to the forward exchange rate that will apply to any Forward Exchange Contract.

You may orally agree to proceed on the basis of the quoted exchange rate. Your acceptance of our quote will immediately create a Foreign Exchange Transaction or Forward Exchange Contract with NAB on the terms of your instructions, our quoted exchange rate and the terms and conditions set out in this product disclosure statement and

any relevant supplemental product disclosure statement. All telephone conversations between you and NAB will be recorded. A written confirmation of your Foreign Exchange transaction or Forward Exchange Contract will be sent after the date of issue of your contract. At the time of issue of the Forward Exchange Contracts, NAB will place a hold over your source account for the investment amount until the settlement date. This means that you will not be able to withdraw or transfer funds from your source account so as to reduce the balance of your source account below the investment amount.

On the settlement date, your source account will be debited for the investment amount and your investment amount will be converted at the agreed forward exchange rate into your settlement currency. Your settlement currency will be paid to you in accordance with your payment instructions.

You will not be able to bring forward or delay the settlement date once you have entered into a Foreign Exchange Transaction or Forward Exchange Contract.

Example 2 - Foreign Exchange Transaction

Natalie needs to make a payment of USD100,000.00 in two business days.

She presently holds AUD200,000.00 in a Citi branded Local Currency At Call Account and wishes to enter into a Foreign Exchange Transaction to buy USD100,000.00 and sell AUD to be settled in two business days. Natalie would like to lock in today's exchange rate. Her Relationship Manager quotes the AUD/USD foreign exchange rate prevailing today at 0.7000 and Natalie agrees to enter into a Foreign Exchange Transaction at that rate.

In two business days, Natalie will receive USD100,000.00 from NAB in exchange for AUD142,857.14* (100,000.00/0.7000).

*This does not include general services fees or government taxes and duties which may be applicable. Please refer to the Schedule of Fees and Charges for more information.

Please note that this is an example only and should not be taken as an indication or representation as to the performance of your Foreign Exchange Transaction.

Example 3 - Forward Exchange Contract

Holly, who is not an Australian resident, needs to pay her university fees of USD35,000.00 on 5 July 2021. She presently holds AUD50,000.00 in a three-month Citi branded Local Currency Fixed Term Deposit Account. Her term deposit will mature on 5 July 2021.

Holly is concerned that the Australian Dollar will weaken against the US Dollar over the coming months.

On 1 March 2021, she enters into a Forward Exchange Contract on the following terms instead of waiting for her term deposit to mature to convert her funds into US Dollars.

<i>Issuer of contract:</i>	<i>National Australia Bank Limited</i>
<i>Investment amount:</i>	<i>AUD 50,000.00</i>
<i>Settlement currency:</i>	<i>US Dollars</i>
<i>Settlement date:</i>	<i>5 July 2021</i>
<i>Prevailing AUD/USD foreign exchange rate on 1 March 2021:</i>	<i>0.7700</i>
<i>Forward adjustment determined by NAB:</i>	<i>-0.0040</i>
<i>AUD/USD forward exchange rate:</i>	<i>0.7660</i>

On 5 July 2021, Holly will receive USD 38,300* (50,000.00 x 0.7660)

*This does not include general services fees or government taxes and duties which may be applicable. Please refer to the Schedule of Fees and Charges for more information.

If, on 5 July 2021, the prevailing AUD/USD foreign exchange rate has fallen as Holly expected she would have benefited from having entered into a Forward Exchange Contract. For example, if the prevailing AUD/USD foreign exchange rate on 5 July 2021 is 0.7600, Holly could exchange her AUD 50,000.00 for USD 38,000.00 (50,000.00 x 0.7600). With the Forward Exchange Contract, she will receive USD 38,300.00 which is more than her university fees of USD 35,000.00. Holly is also financially better off by USD 300.00 (USD 38,300.00 - USD 38,000.00).

If Holly's expectations are incorrect and the prevailing AUD/USD foreign exchange rate on 5 July 2021 is above 0.7660, she will still be able to pay her university fees although she has lost the opportunity to benefit from the appreciation of the Australian Dollar against the US Dollar.

For example, if the prevailing AUD/USD foreign exchange rate on 5 July 2021 is 0.7700, Holly could exchange her AUD 50,000.00 for USD 38,500.00 (50,000.00 x 0.7700). With a Forward Exchange Contract, she will receive USD 38,300.00, which is less than the amount she would have received if she had converted her funds on 5 July 2021. This represents an opportunity cost of USD 200.00, being the difference between USD 38,300.00 and USD 38,500.00.

Please note that this is an example only and should not be taken as an indication or representation as to the performance of your Forward Exchange Contract.

CAN I CANCEL MY FOREIGN EXCHANGE TRANSACTION?

A Foreign Exchange Transaction cannot be cancelled.

CAN I CANCEL MY FORWARD EXCHANGE CONTRACT?

Generally you should avoid entering Forward Exchange Contracts where there is a risk that you may need to cancel. See the discussion under "Benefits and Risks". However, NAB will on request make an offer to you of the terms on which it will cancel a Forward Exchange Contract. See clause 7 of the Foreign Exchange Contracts Terms and Conditions. Please contact your Relationship Manager if you wish to request a cancellation.

If a cancellation is agreed, NAB will pay you your settlement currency two business days after the date on which NAB agreed to the cancellation. The amount paid will be determined by NAB based on the fair economic value of your Forward Exchange Contract on the day NAB agreed to the cancellation.

The factors that NAB considers in determining the fair economic value of your Forward Exchange Contract include the prevailing foreign exchange rates, prevailing interest rates and the date of your cancellation. NAB may deduct any costs, losses or expenses that it incurs in relation to your cancellation.

CURRENCY EXCHANGE ORDER WATCHING CONTRACT

Currency Exchange Order Watching Contract with NAB is not currently offered. Previously needed to advise your Relationship Manager of:

- your investment amount and the currency of your funds
- the source account in which your funds are held
- the settlement currency
- your specified foreign exchange rate (either a Target Rate or a Stop-Loss Rate, explained below) at which you wish to convert your investment amount into your settlement currency
- the expiry date of your order
- the maturity date of your fixed term deposit account (if applicable), and
- your payment instructions.

Once your Relationship Manager has received your Instructions, he or she will confirm that they are acceptable and seek confirmation that you wish to proceed. If you agree to proceed, a Currency Exchange Order Watching Contract is entered into between you and NAB. All telephone conversations between you and NAB will be recorded. A written confirmation of your Currency Exchange Order Watching Contract will be sent to you after the date of issue of your contract.

At the time of issue, NAB will place a hold over your source account for the investment amount until either the expiry date of your order or the date your order is executed. This means that you will not be able to withdraw or transfer funds from your source account so as to reduce the balance

of your source account below the investment amount. Your specified foreign exchange rate is reached when the prevailing foreign exchange rate quoted by NAB is equal to your specified rate.

WHAT HAPPENS IF MY SPECIFIED FOREIGN EXCHANGE RATE IS REACHED ON OR BEFORE THE EXPIRY DATE?

NAB will debit your source account for the investment amount and exchange your investment amount into your settlement currency, in the case of a Target Rate Order, at the specified foreign exchange rate, or, in the case of a Stop-Loss Order, at the "Next Available Rate" as defined in the Terms and Conditions. How close the Next Available Rate is to your specified foreign exchange rate depends on market volatility and the other factors identified in the definition of Next Available Rate. The date of debiting your source account will be:

- if your source account is a fixed term deposit account, on the maturity date of your fixed term deposit account; or
- if your source account is an at call account or an Overnight Multi Currency Account, no later than the next business day after the date your specified foreign exchange rate is reached.

Your settlement currency will be paid to you as instructed.

WHAT HAPPENS IF MY SPECIFIED FOREIGN EXCHANGE RATE IS NOT REACHED BY THE EXPIRY DATE?

Your Currency Exchange Order Watching Contract will automatically expire if the specified foreign exchange rate is not reached by the expiry date. The hold over your source account will be lifted on the next business day after your Currency Exchange Order Watching Contract expires. You will not be notified of the expiry of your contract nor the removal of the hold over your source account.

CAN I CANCEL MY CURRENCY EXCHANGE ORDER WATCHING CONTRACT?

You can cancel your Currency Exchange Order Watching Contract at any time provided that your specified exchange rate has not been reached. Please contact your Relationship Manager if you wish to cancel your contract. There is no cancellation fee.

WHAT TYPE OF CURRENCY EXCHANGE ORDER WATCHING CONTRACT DOES NAB OFFER?

There are two types of Currency Exchange Order Watching Contract namely

- (1) Target Order
- (2) Stop-Loss Order

(1) Target Order

In a Target Order, you specify a target exchange rate (Target Rate) and instruct NAB to complete a foreign exchange transaction for you if the prevailing exchange rate reaches the Target Rate. The Target Rate specified by you needs to be a rate that is "better" (gives a higher settlement currency equivalent) than the prevailing exchange rate. When the exchange rate of the relevant currencies quoted by NAB reaches your Target Rate, NAB will execute your Target Order and complete the foreign exchange transaction at the Target Rate.

If you are waiting for an exchange rate to improve over time before you exchange currencies, you can use a Target Order to remove the need for you to monitor the exchange rate movement constantly.

Example - Target Order

John has EUR 70,000.00 in an Overnight Multi Currency Account with National Australia Bank Limited. John believes the Euro will weaken against the Australian Dollar. On 1 July 2021, John enters into a Currency Exchange Order Watching Contract with NAB to exchange EUR 50,000.00 to Australian Dollars if the AUD/EUR exchange rate reaches 0.6200 by 31 August 2021. The terms of John's Currency Exchange Order Watching Contract are:

<i>Issuer of contract:</i>	<i>National Australia Bank Limited</i>
<i>Investment amount:</i>	<i>EUR 50,000.00</i>
<i>Settlement currency:</i>	<i>AUD</i>
<i>Target Rate:</i>	<i>AUD/EUR: 0.6200</i>
<i>Expiry date:</i>	<i>31 August 2021</i>

The prevailing AUD/EUR foreign exchange rate on 1 July 2021 is 0.6400. NAB places a hold over EUR 50,000.00 in John's Overnight Multi Currency Account. John may continue to transact with the remaining EUR 20,000.00. On 15 July 2021, the prevailing AUD/EUR foreign exchange rate quoted by NAB reaches 0.6200 and NAB executes the contract on John's behalf. John receives AUD 80,645.16* (50,000.00/0.6200) on 17 July 2021, being two business days later.

*This does not allow for general services fee or government taxes and duties which may be applicable, and depending on your settlement instructions may be deducted from your settlement amount. Please refer to the Schedule of Fees and Charges for more information.

If the prevailing foreign exchange rate remains above 0.6200 for the term of John's order, his Currency Exchange Order Watching Contract will expire on 31 August 2021. On 1 September 2021, NAB will lift the hold over his Overnight Multi Currency Account.

Please note that this is an example only and should not be taken as an indication or representation as to the future performance of your Currency Exchange Order watching Contract.

(2) Stop-Loss Order

A Stop-Loss Order allows you to manage your foreign exchange risk by instructing NAB to complete a foreign exchange transaction for you when the prevailing exchange rate deteriorates (or moves adversely) to the stop-loss exchange rate (Stop-Loss Rate) specified by you. A Stop-Loss Order can provide a degree of protection against adverse exchange rate movements.

In a Stop-Loss Order, you specify an exchange rate (Stop-Loss Rate) and instruct NAB to complete a foreign exchange transaction for you if the prevailing exchange rate reaches or exceeds the Stop-Loss Rate. However, unlike the Target Rate in a Target Order, the Stop-Loss Rate is a rate that is worse (gives a lower settlement currency equivalent) than the prevailing exchange rate.

When the exchange rate of the relevant currencies quoted by NAB reaches or exceeds your Stop-Loss Rate, NAB will execute your Stop-Loss Order by completing the foreign exchange transaction at the Next Available Rate. It is important for you to understand that NAB does not promise to settle your Stop-Loss Order at the Stop-Loss Rate, NAB's promise is to settle at the Next Available Rate once the Stop-Loss Rate trigger has occurred. In volatile markets, the exchange rate quoted by NAB might 'gap' through your Stop-Loss Rate. In such a situation, it is practically impossible for NAB to complete your foreign exchange transaction at the specified Stop-Loss Rate. Accordingly the Next Available Rate can be a rate that is inferior to the Stop-Loss Rate specified by you.

Example: Stop-Loss Order

Liam lives in Australia and has just received USD200,000 from the sale of a property in the United States. He expects the USD to strengthen against the AUD from the prevailing exchange rate of 0.7300 in the near term, so he decides to wait before converting his USD to AUD.

In case his expectation does not eventuate, Liam decides to give himself some protection against a drastic depreciation of the USD. Accordingly, on 1 July 2021 Liam places a Stop-Loss Order with NAB to exchange USD200,000 to Australian Dollars specifying a Stop-Loss Rate of 0.7500 and an Expiry Date of 31 August 2021. This means that should the exchange rate move against Liam's expectation and reaches or exceeds the Stop-Loss Rate of 0.7500 before 31 August 2021, NAB will convert Liam's USD200,000 into AUD at the Next Available Rate. The terms of Liam's Stop-Loss Order are:

<i>Issuer of contract:</i>	<i>National Australia Bank Limited</i>
<i>Investment amount:</i>	<i>USD200,000</i>
<i>Settlement currency:</i>	<i>AUD</i>
<i>AUD/USD Stop-Loss Rate:</i>	<i>0.7500</i>
<i>Expiry date:</i>	<i>31 August 2021</i>

The prevailing AUD/USD exchange rate on 1 July 2021 is 0.7300. NAB places a hold over USD200,000 in Liam's Multi Currency Account. On the 15 July 2021, the prevailing AUD/USD rate reached 0.7500. NAB executes Liam's Stop-Loss Order and converts USD200,000 to AUD at the Next Available Rate of 0.7510. Liam receives AUD266,666.67* on 17 July 2021, being two business days later.

*This does not allow for general services fee or government taxes and duties which may be applicable, and depending on your settlement instructions may be deducted from your settlement amount. Please refer to the Schedule of Fees and Charges for more information.

If the prevailing AUD/USD rate remains below 0.7500 for the term of Liam's order, his Currency Exchange Order Watching Contract will expire on the 31 August 2021, NAB will lift the hold over his Multi Currency Account.

Please note that this is an example only and should not be taken as an indication or representation as to the future performance of your Stop-Loss Order.

FOREIGN CURRENCY AND INTEREST SPREAD

We earn our income from the foreign currency and interest spread (or margin) that we apply to our products and services. This is the difference between the rate at which we buy and sell currencies, or lend and borrow funds, and will depend on factors such as the investment amount, investment term and prevailing market rates.

Our margin is incorporated into the foreign exchange rates and interest rates quoted to you, and is not an additional charge or fee payable by you.

EARLY WITHDRAWAL FEE FOR A FIXED TERM DEPOSIT ACCOUNT AND LADDER TERM DEPOSIT ACCOUNT

Reduction in interest income for a Fixed Term Deposit Account and Ladder Term Deposit Account.

If you request early withdrawal and this is agreed with NAB, this will reduce the amount payable to you from the interest income on the Term Deposit. A description of this reduction is set out in our Schedule of Fees and Charges.

Although the reduction in interest income is calculated as a percentage of the accrued interest up to the date of processing, your interest income for the financial year in which the interest is paid will be reported as the gross amount of interest earned excluding any reduction in interest income amount.

Benefits and Risks

BENEFITS

MULTI CURRENCY ACCOUNTS

The benefits of opening any of the Multi Currency Accounts include:

- Convenience - you may hold your foreign currency in a variety of accounts, from fixed term deposit to at call accounts, while earning an attractive interest rate.
- Choice - you may choose from a range of currencies and investment terms to suit your specific needs.
- An opportunity to hold foreign currency investments in anticipation of favourable currency appreciation as part of your overall investment strategy.

FOREIGN EXCHANGE TRANSACTION

The benefit of the Foreign Exchange Transaction is that it allows you to exchange one currency for another at the prevailing foreign exchange rate.

FORWARD EXCHANGE CONTRACT

The Forward Exchange Contract is commonly used as a risk management tool. Benefits of the Forward Exchange Contract include:

- The ability to lock in an exchange rate now for future currency conversion, thereby minimising the impact of adverse movements in foreign exchange rates.
- If your cash flow is denominated in a foreign currency, a Forward Exchange Contract can help you manage fluctuations in foreign exchange rates and better plan and manage your cash flow.

CURRENCY EXCHANGE ORDER WATCHING CONTRACT

The Currency Exchange Order Watching Contract saves you from having to constantly monitor the foreign currency market. The benefits of a Currency Exchange Order Watching Contract include:

- The close monitoring of currency market movements by NAB with automatic execution of your transaction as instructed once the specified foreign exchange rate is reached.
- Not missing the opportunity of locking in a preferred foreign exchange rate if the prevailing foreign exchange rate is not favourable.

RISKS

All investments involve varying degrees of risk. The key risks involved in the Multi Currency Accounts and the Foreign Exchange Contracts include:

TREATMENT OF ACCOUNT OR CONTRACT

NAB may terminate your Multi Currency Account and/or Foreign Exchange Contract without your approval in order to comply with any law (whether domestic or foreign), including

but not limited to any Foreign Reporting Requirements. Please read the section entitled "Foreign Reporting Requirements" in the Additional Information section of this PDS and the terms and conditions for more details.

WITHHOLDING

NAB may withhold or deduct an amount in respect of payments made to or from your Multi Currency Account and/or Foreign Exchange Contract in order to comply with any law (whether domestic or foreign), including but not limited to any Foreign Reporting Requirements. Please read the section entitled "Foreign Reporting Requirements" in the Additional Information section of this PDS and the Fees Charges & Taxes section of the terms and conditions for more details.

BLOCKING

NAB may block any payment or transaction where such payment or transaction would result in NAB or any affiliate being in breach of any law (whether domestic or foreign), including any Foreign Reporting Requirements.

ASSIGNMENT

NAB may assign its rights and obligations under these terms and conditions to an affiliate in order to comply with any law (whether domestic or foreign), including but not limited to complying with any Foreign Reporting Requirements.

GENERAL MARKET AND FOREIGN EXCHANGE RISK

The general economic and political climate, general movements in local and international capital and stock markets, prevailing and anticipated economic conditions, investor sentiment and interest rates and other events and factors outside the control of NAB could all affect the foreign exchange rate, interest rates and hence the value of your investment.

Exchange rates fluctuate from day-to-day and during the day. If you exchange currencies the amount received will vary by reference to the prevailing exchange rate.

Foreign currency denominated investments are subject to rate fluctuations that may provide both opportunities and risks, including risk of loss of capital. In some circumstances, the risk of loss in foreign exchange trading may be substantial.

FIXED TERM AND LADDER DEPOSITS

Liquidity risk

An investment in a Fixed Term or Ladder Deposit Account is an illiquid investment. You should assume that funds invested will not be available until the maturity of the deposit. If NAB agrees to vary the terms of a deposit additional fees and charges will be payable. Those additional fees and charges will mean that you will receive less than your deposit plus interest calculated using your originally agreed interest rate up to the time of early withdrawal.

CURRENCY CONVERSION AND ACCOUNT CLOSURE

NAB may close your Multi Currency Account and/or convert your investment amount and accrued interest into another major currency or cancel your Foreign Exchange Contract on the occurrence of certain foreign exchange related events outside its control. Please read clause 11 "Conversion and closure of Account" of the terms and conditions for more details.

PERFORMANCE BY NAB

The obligations of NAB under the terms and conditions of the Multi Currency Accounts and Foreign Exchange Contracts are unsecured contractual obligations of NAB which will rank equally with NAB's other unsecured contractual obligations and debt other than liabilities preferred by law. The performance of Australian banks, including National Australia Bank Limited, is not guaranteed by the Australian Prudential Regulation Authority or by any Australian or other government authority. Under the Australian Government's Financial Claims Scheme your AUD deposits with NAB may be guaranteed up to \$250,000 per account holder. The Scheme does not apply to your non-AUD deposits. You should make your own assessment of the ability of these issuers to meet their obligations.

KEY FOREIGN EXCHANGE CONTRACT RISKS

Investment risk

Entering into a Foreign Exchange Contract will involve taking a position on the direction of foreign currency movements. If foreign exchange rates move in the opposite direction, you may incur a foreign exchange loss. Because exchange rates are volatile, entering into these contracts can be speculative in nature and involve the risk of loss of capital.

OPPORTUNITY COSTS

While a Foreign Exchange Contract allows you to minimise the adverse impact of exchange rate movements, entering into a Foreign Exchange Contract also means that you will not be able to benefit from future favourable exchange rate movements.

CANCELLATION OF THE FORWARD EXCHANGE CONTRACT AT YOUR REQUEST

If you request and NAB agrees a cancellation as requested by you, NAB will determine an amount based on the fair economic value of your Forward Exchange Contract investment amount at the time your request is permitted. This may result in you receiving an amount less than you otherwise would have received if the agreed settlement date had been adhered to.

STOP-LOSS ORDERS

NAB will execute your Stop-Loss Order by completing the foreign exchange transaction at the Next Available Rate. NAB does not promise to settle your Stop-Loss Order at the Stop-Loss Rate; NAB's promise is to settle at the Next Available Rate once the Stop-Loss Rate trigger has occurred.

In volatile markets, the exchange rate quoted by NAB might 'gap' through your Stop-Loss Rate. In such a situation, it is practically impossible for NAB to complete your foreign exchange transaction at the specified Stop-Loss Rate. Accordingly the Next Available Rate can be a rate that is inferior to the Stop-Loss Rate specified by you. This may result in you receiving an amount less than you would have if your order had been executed at the Stop-Loss Rate. NAB can make no promise that after executing your order at the Next Available Rate that foreign exchange rates will not move in the opposite direction, and so leading to an opportunity cost as discussed above.

ADVICE

NAB is not in this PDS and terms and conditions undertaking any duty to provide you with advice on the purchase or sale of currencies or the timing of currency transactions or on the advantages or disadvantages of fixed interest rates on deposits or on events that may be relevant to your return on an investment that includes currency and or interest rate risk.

NAB does not select the foreign currencies in which you choose to invest or the ways in which you choose to invest in them.

Accordingly whether you make a positive or a negative return on your Multi Currency Accounts and Foreign Exchange Contracts depends on your judgment and discretion.

NAB strongly recommends that if you have any doubt as to your understanding of the products, concepts and risks discussed in this PDS that you discuss your concerns with a Relationship Manager and/or seek expert independent advice before undertaking any commitment. Any advice provided to you by your Relationship Manager will be in the nature of factual information or general advice only.

Taxation

This section is a general guide to the key Australian taxation implications of an investment in the Multi Currency Account or the entering into of a Foreign Exchange Contract. It does not take into account your specific taxation circumstances. NAB is not in the business of providing tax advice and cannot be relied on to do so. Accordingly you should seek independent professional tax advice from a recognised tax adviser.

AUSTRALIAN RESIDENTS

If you are a resident of Australia for Australian tax purposes in the income year in which interest is paid or credited, the interest should be included in your assessable income in the year it is paid or credited to you. Where such interest is paid or credited in a foreign currency, you should translate that interest into Australian Dollars at the exchange rate prevailing on the date it is paid or credited to you.

You are not legally obliged to quote your TFN or ABN or provide an applicable exemption. However if you do not and you are a resident of Australia, NAB is required to withhold tax at the highest marginal tax rate plus Medicare levy from interest paid or credited to you. If tax has been so withheld you are entitled to claim a credit for that tax in your Australian income tax return.

Australian tax legislation contains comprehensive rules for determining when a foreign exchange gain or loss attributable to a currency exchange rate effect (a "forex realisation gain" or "forex realisation loss", respectively) may be realised (a "forex realisation event"), and how the relevant gain or loss is to be calculated. A forex realisation gain or a forex realisation loss made by an Australian resident in connection with a multicurrency account or a foreign exchange transaction will be assessable income or an allowable deduction, respectively.

Specifically, the withdrawal from or the repayment on Maturity of foreign currency from a multi-currency account will result in a forex realisation event, being the cessation of a right to receive foreign currency. A forex realisation gain will arise to the extent that the foreign currency amount repaid (whether this occurs by way of deposit into another Citi branded account, or reinvestment, or remittance to a third party), translated into Australian Dollars on the repayment date exceeds the cost of that right, being the foreign currency amount translated into Australian Dollars at the exchange rate prevailing on the date the funds were deposited to the multi-currency account. Conversely, a forex realisation loss may arise.

The law in relation to taxation of forex realisation gains or losses is extremely complex and contains a number of elections that may be available to you for ease of administration. You should seek professional advice from a recognised tax advisor on how these rules apply to your circumstances.

NON-RESIDENTS OF AUSTRALIA

If you are a non-resident of Australia interest paid or credited to you will be subject to a final interest withholding tax at the rate of 10%.

If you are required to file an Australian income tax return as a non-resident, interest paid or credited to you in relation to your Multi Currency Account should not be included in your assessable income. This will be the case notwithstanding that the interest will be Australian sourced income.

Any forex realisation gains or losses realised by a non-resident investor in connection with either the Multi Currency Account or a Foreign Exchange contract will not be assessable or deductible for Australian tax purposes nor will any withholding tax apply.

US PERSONS

NAB is also required to comply with United States information reporting regulations and must report all payments of interest paid to US persons, including US persons who are resident of Australia, to the United States Internal Revenue Service. Any US person that has not provided NAB with their Social Security Number or Taxpayer Identification number will be subject to "backup withholding" on interest paid to them at the prevailing rate (being 24% at the date of this booklet).

Additional Information

MAKING DEPOSITS AND WITHDRAWALS

Generally, any withdrawal or deposit will be valued the day after instructions are received, provided your instructions are complete and received before 3:00pm Sydney time on any business day (excluding days that are public holidays in Sydney). Any transaction outside these times will be processed on the following business day.

We may limit the countries to which you can transfer money and we may not be able to accept transfers from other international bank accounts in certain foreign currencies. Please visit citibank.com.au/deposits-transfers or speak to your Relationship Manager for information on which countries and currencies are available.

HOW CAN NON-PERSONAL ACCOUNTS BE OPERATED?

Depending on the Account you have, you can nominate different methods of operation. Account holders can authorise anyone to operate the Account or alternatively they can require a signature from multiple applicants/signatories before a transaction or request is processed.

AUTHORISING ANOTHER PARTY TO OPERATE YOUR ACCOUNT

As the Account holder, you may appoint at any time authorised persons (additional signatories) to operate your Account. You will need to fill in an 'Authority to Operate' form. This form may be downloaded at citibank.com.au under useful forms and links.

Any Authority to Operate, which you have provided, will continue until we receive written notice from one or more Account holders revoking the authority. NAB will not be responsible for any liability, which arises as a result of NAB acting in accordance with an Authority to Operate.

Each Account holder (jointly and severally for joint Account holders) will be liable for all debts incurred by any additional signatory/authorised person using any of the account facilities in respect of the Account.

TRANSACTING IN WRITING OR VIA PHONE

Depending on the functionality available on your Account, you may transact in writing or via phone, however, before NAB can act on your instruction you will need to complete the 'Authority to Operate on Written/Phone Instructions' form available online at citibank.com.au. You will not be able to give telephone instructions if more than one signature is required to operate your Account. Certain limits may apply for transacting in writing or by phone. For further information on this service and any limitations please contact your Relationship Manager or Citiphone.

THINGS TO KNOW WHEN REQUESTING A TELEGRAPHIC TRANSFER

When requesting a Telegraphic Transfer your funds might be sent via an intermediary bank before reaching its destination. This will only happen if NAB is unable to send your funds directly to the beneficiary bank.

Intermediary banks may charge you for sending your funds onto the beneficiary. Intermediary bank fees will be deducted from the transfer amount before sending on. When requesting a Telegraphic Transfer you must ensure the beneficiary details are correct otherwise your request may be rejected and returned to NAB. In the event your funds are returned to NAB due to incorrect or insufficient information they will be credited back to your Account less any fees and charges that have been applied by the intermediary and beneficiary bank. If your Telegraphic Transfer request is in foreign currency and the funds are returned, NAB will credit your Account with the Australian Dollar equivalent of the foreign currency amount, using the applicable foreign exchange rate quoted by NAB on the day and at the time of conversion, less any intermediary and beneficiary bank fees and charges. The rate used for the conversion will vary depending on prevailing market rates, the size of your transaction, the currency of the transaction, the way NAB receives the amount and any existing arrangements with you about exchange rates.

NAB has no control over other financial institutions, their fees and charges or any government legislation or controls that may create costs for your transaction or those financial institutions or regulate the way in which they operate.

We may limit the countries to which you can transfer money. Please visit citibank.com.au/deposits-transfers or speak to your Relationship Manager for information on which countries are available.

FOREIGN REPORTING REQUIREMENTS

As a financial institution, NAB may be subject to Foreign Reporting Requirements. To comply with Foreign Reporting Requirements, you agree to provide to NAB such information as it may require, both as part of account opening procedures and on an ongoing basis while you hold a Multi Currency Account and/or Foreign Exchange Contract.

NAB may also be required to report information in respect of your Multi Currency Account and/or Foreign Exchange Contract to any government, regulator or authority (whether domestic or foreign).

If you do not provide the required information upon request, or consent to NAB providing information in respect of your Multi Currency Account and/or Foreign Exchange Contract to the relevant government, regulator or authority in accordance with the applicable Foreign Reporting Requirements, NAB may be required to make a Foreign Tax Deduction from certain payments made to your Multi Currency Account and/or Foreign Exchange Contract and/or to terminate your Multi Currency Account and/or Foreign Exchange Contract.

If NAB or any other person is required to make a Foreign Tax Deduction, you will not be entitled to any increase in payments made to your Multi Currency Account and/or Foreign Exchange Contract, or receive any additional payments in respect of such Foreign Tax Deduction so that the balance of your Multi Currency Account and/or Foreign Exchange Contract balance may be less than you expected.

Foreign Reporting Requirements means obligations imposed on financial institutions:

- (a) by foreign law or regulation (including foreign laws in respect of which a financial institution reasonably considers itself bound);
- (b) by Australian laws that implement Australia's obligations under an agreement with a foreign government, regulator or authority; or
- (c) under agreements entered into between the relevant financial institution and a foreign government, regulator or authority, to do one or more of the following:
 - i. conduct due diligence in respect of Multi Currency Accounts and Foreign Exchange Contracts;
 - ii. report information (which may include account information) in respect of Multi Currency Accounts and Foreign Exchange Contracts to a government, regulator or authority (whether domestic or foreign);
 - iii. make a Foreign Tax Deduction from payments made to or in respect of Multi Currency Accounts or Foreign Exchange Contracts; and
 - iv. close or terminate Multi Currency Accounts or Foreign Exchange Contracts.

Foreign Tax Deduction means a deduction or withholding from a payment made to or in respect of a Multi Currency Account or Foreign Exchange Contracts that is required or contemplated by a Foreign Reporting Requirement.

Upon request, NAB will provide you with details of the exchange rate and any transaction charges that will apply (or if these are not known at the time, details of the basis on which the transaction will be completed if they are known to NAB). The rate used for the conversion will vary depending on prevailing market rates, the size of your deposit, the currency of the deposit, the way NAB receives the deposit and any existing arrangements with you about exchange rates.

- 5.1 Minimum opening, deposit and transaction amount requirements may apply to your Account from time to time. NAB will advise you of any such requirements that apply to your Account at its commencement. However, NAB reserves the right to vary the nature and amount of these requirements in accordance with clause 20.
- 5.2 The minimum balance for opening or reinvesting into an Account is AUD10,000.00 or its equivalent in another currency at the time of deposit.

- (a) NAB may effect transactions for you through the agency of and/or with a counterparty which is a member of the National Australia Bank Limited group or a person otherwise associated with NAB or in which NAB has a direct or indirect material interest.

10. SET-OFF AND ACCOUNT COMBINATION

If you are in breach of an obligation to pay money to NAB, may be insolvent, or after your death or incapacity, we may set-off amounts that we owe each other or combine your Account with any one or more of your accounts with us. The consequence of accounts being combined will be that one balance remains and if that is a debit balance, you will remain liable to us for that amount. The consequence of "set off" is that amounts that we owe to each other are reduced by the same amount. We will not exercise these rights so as to cause a liability to become secured if we agreed that it would not be secured. If we decide to exercise these rights and have not given you prior notice we will tell you promptly afterwards. You may be insolvent if you commit an act of bankruptcy or enter into any assignment arrangement or composition with any creditors or are bankrupt.

11. CONVERSION AND CLOSURE OF ACCOUNT

11.1 Circumstances beyond NAB's control

NAB may terminate your Account (including termination of your Fixed or Ladder Term Deposit Account prior to maturity) and, where legally permitted, return your deposit and accrued interest (where the combination of the deposit and accrued interest is AU\$5 or more (or its foreign currency equivalent)) to you in any major currency if any of the following events occur:

- (1) restrictions on convertibility and transferability are applied to the currency of your deposit;
- (2) the currency (except Euro) of your deposit ceases to be the official currency of its issuing nation;
- (3) if your deposit is in Euro and the Euro ceases to be the official currency of all member states participating in the European Economic and Monetary Union;
- (4) if NAB determines in good faith that the performance of NAB's obligations under these terms and conditions has or will become in circumstances beyond NAB's reasonable control, impossible, unlawful, illegal or otherwise prohibited as a result of compliance with any applicable present or future law, rule, regulation, judgement, order or directive of any government, administrative, legislative or judicial power or authority (whether domestic or foreign), or to comply with any Foreign Reporting Requirement;
- (5) NAB determines that to leave the Account open has caused or may cause reputational damage to NAB; or
- (6) Any actual or proposed event that may reasonably (in NAB's opinion) be expected to lead to any of the events referred to in paragraphs (1) to (5) above occurring.

11.2 Where NAB terminates your Account in the circumstances described in 11.1, any credit balance (the balance determined by including accrued interest not yet credited) or less than AU\$5 (or its foreign currency equivalent) at the date of termination will not be returned to you. If the balance of your Account is AU\$5 or more (or its foreign currency equivalent) at the date of termination:

- (1) the payment made to you will be made in one of the following currencies, being either the highest ranking of the possible alternatives, or if it was possible to consult with you before the time that NAB would usually contain the currency, the currency chosen by you from the possible alternatives:

- (a) the currency held in your Account;
- (b) the Australian Dollar;
- (c) the Euro; or
- (d) the British Pound.

Where payment in one of the above currencies is not possible, the payment to you will be made in another major currency you may choose, being one of the other currencies then offered by NAB;

- (2) the payment will be made as soon as possible after your Account is terminated, less any agreed fees and charges, or in the case of a Fixed or Ladder Term Deposit Account, the fees and charges that NAB would have included in an offer of varied terms under clause 27.2 or 33.2. The exchange rates used will be as if you had instructed NAB to make the conversions, see clause 3.3.

11.3 NAB's general right to close your Account

Without limiting clause 11.1, NAB reserves the right to close your Account (but not a Fixed or Ladder Term Deposit Account) at any time by giving you 30 days' written notice to your last notified mailing or email address. In certain circumstances, NAB may also give notice by newspaper advertisement. If NAB exercises its discretion to close your Account, any credit balance (the balance determined by including accrued interest not yet credited of less than AU\$5 (or its foreign currency equivalent) at the date of closure will not be returned to you. If the balance of your Account is AU\$5 or more (or its foreign currency equivalent) at the date of closure, NAB will forward a cheque to your last notified mailing address with the Account balance plus any accrued interest not included in the balance, less any agreed fees and charges.

11.4 Inactive Accounts in debit or with a nil balance

If your Account has not been operated on by deposit or withdrawal for a period of at least 6 months (excluding Fixed or Ladder Term Deposit Account), and your Account is either in debit (apart from a secured overdraft) or has a nil balance, NAB may close your Account without any prior written notice to you.

11.5 Unclaimed monies

If your Account has not been operated on for a period of at least seven years (either by deposit or withdrawal), NAB may close your Account and transfer the balance to the Commonwealth Government as unclaimed monies, where the account balance is greater than or equal to AU\$500. NAB will provide you with at least 30 days' prior written notice to your last notified mailing or email address before taking this action. This excludes all Fixed or Ladder Term Deposit Accounts or any account not in Australian Dollars.

12. BLOCKING

NAB may block any payment or transaction where such payment or transaction would result in NAB or any affiliate, including Citigroup being in breach of any law (whether domestic or foreign), including any Foreign Reporting Requirements. Please read the section entitled "Foreign Reporting Requirements" in the Additional Information section of this PDS and the terms and conditions for more details.

13. NON RESIDENT DECLARATION

In the event that you inform NAB of changes in your personal details such as your address but do not inform NAB of any change in status, NAB may unilaterally treat your status as having changed.

13.3 If your status as an exempt foreign person(s) for US tax purposes changes, you must notify NAB in writing immediately and in any event within 30 days from the date of change.

14. INVESTMENT RISK

NAB does not make any representation as to the likely performance of any currency or foreign currency exchange rate. See the Benefits and Risks section of this PDS.

15. BANKING CODE OF PRACTICE

"Practical" refers to the market and operational issues that will create variable time lags before NAB can respond after a trigger time and that will mean that other dealers in the foreign exchange market may experience a different trigger time; and may have been able to settle similar orders at a rate other than the Next Available Rate. Examples of these issues are operating in different time zones, dealing in less liquid currencies, the volume of buy and sell orders at different rates, market volatility, lack of a perfect market, the time taken (even by automated systems) to make decisions and matters that are beyond NAB's reasonable control like system outages.

Prevailing Foreign Exchange Rate means the relevant foreign exchange rate for your Foreign Exchange Contract quoted by NAB;

Settlement Amount means the amount paid to you on the Settlement Date in the Settlement Currency;

Target Order means the Currency Exchange Order Watching Contract whereby the Target Rate is "better" (gives a higher Settlement Currency equivalent) than the Prevailing Foreign Exchange Rate

You and **your** means the person or persons in whose name the Source Account is held.

3.4 Investor bound by terms and conditions

By completing and returning the Account Opening Form to NAB, you agree to be bound by these terms and conditions.

3.5 Joint Account

Where the investment is held in the name of more than one person:

- (1) upon the death of one investor, the title to the investment will vest with the surviving investor or investors (subject to other claims);
- (2) these terms and conditions will apply to each of you jointly and individually;
- (3) subject to you informing NAB of any restrictions as to the method of operation, each of you is

separately authorised to conduct your investment in all respects; and

- (4) you may not authorise NAB to act on your telephone instructions if conducting your investment requires more than one signatory.

3.6 Authority to Operate

- (2) You may authorise a person or persons to conduct your investment by completing the relevant section in the Account Opening Form.
- (3) You may revoke or replace any authorisation by completing a new Authority to Operate. The authorisation will continue to apply until NAB has received the new Authority to Operate.
- (4) Unless otherwise notified by you in a form acceptable to NAB, a person you authorise to conduct your investment will not have the benefit of clause 3.6.

3.7 Disputes in conducting your investment

- (1) If NAB becomes aware of, or has reasonable grounds to suspect that there is, a dispute between any of the investors or any parties NAB considers relevant to conducting your investment in a Foreign Exchange Contract, NAB may (at NAB's absolute discretion) suspend any further transactions.
- (2) To remove the suspension NAB will need to receive written instructions from all relevant investors and parties requesting that NAB lifts the suspension.

3.8 Change in details

You must notify NAB in writing of any change in details stated in your Account Opening Form as soon as possible. NAB may accept other forms of notice at NAB's discretion.

3.9 Instructions fully authorised

- (1) You agree that as long as any instructions received by NAB are:
 - (a) given or appear to be given by you or by a person authorised to submit Instructions on your behalf;
 - (b) (if a form for example "written" and/or rules for example "nominated third party payees only" have been agreed) in accordance with the form and/or process agreed; and
 - (c) (if a process has been agreed) authenticated in accordance with the process agreed with you; then NAB will be entitled to treat such instructions as Instructions that are fully authorised by and binding on you regardless of:

- (d) the Instruction being identical or similar to another Instruction; or
- (e) circumstances prevailing at the time such Instructions are received that might lead a person to suspect that an instruction was not fully authorised, unless NAB employees or agents with direct responsibility for acting on Instructions have actual knowledge that an instruction is not authorised by you and have a reasonable opportunity to prevent the instruction being relied on.

- (2) Examples of common authentication processes include passwords and PINS used in the transmission of electronic instructions; checking by calling a telephone number advised by you; comparing original or facsimile signatures with specimens provided by you.
- (3) NAB may, in its absolute discretion, defer acting in accordance with the whole or any part of an instruction pending further enquiry to or confirmation by you but NAB will not be under any obligation to do so in any case.

3.10 NAB may process Instructions despite insufficient funds
